

# DWS is a leading provider of Oracle JD Edwards EnterpriseOne software services and products

Since 1998, we have been providing development and technical services to organizations looking to customise, integrate, extend, upgrade or support implementations of EnterpriseOne.

We also sell testing products that leverage our deep domain expertise and that help customers run smaller, faster and smarter projects.

## Real Outcomes

- Reduce your custom footprint by up to 75%
- Reduce the risk associated with a JDE E1 upgrade
- Deliver fixed price and fixed timescale projects
- Reduce testing cost and effort by up to 85%
- Deliver the lowest defect levels in the market
- Reduce the effort of staying code-current
- Drive down the total cost of owning JDE E1

## Proven Methodology

As one of the world's leading JD Edwards specialists we concentrate on what we know best; helping our customers get the most from their investment in JD Edwards EnterpriseOne.

We maintain quality of service by employing the most knowledgeable and experienced JD Edwards developers we can find; some of whom helped to develop EnterpriseOne. This intimate knowledge of the code base allows us to develop products and services that integrate seamlessly with JDE E1.

As a result, we provide development and upgrade services to the highest possible standard, with the lowest defect levels in the market, resulting in minimal impact on the day-to-day running of your organization.

# Products & Services

DWS is recognized as one of the world's leading technical service and solutions companies, specializing solely in JD Edwards EnterpriseOne. We have a history of excellence and innovation that enables us to bring product and service offerings to the market that continually drive down your costs and drive up the quality of your JDE E1 system.

Our unique go-to-market propositions are delivered in two different ways. Firstly, as tools that our teams use to deliver services to our customers – what we refer to as software-led services.

Secondly, as software products (available on a subscription basis) that help customers better understand, manage and maintain their implementations of JDE E1.

## DWS Dimension™

### Develop

DWS provides software development expertise and support to companies who want to customize and extend JD Edwards EnterpriseOne to meet their specific business requirements.

### Upgrade

DWS eliminates the risks associated with change events; reducing your modified footprint and delivering fixed price and timescale upgrades with the lowest defect rate in the industry.

### Test

Our innovative test planning, management and automation products are available from the Cloud on a subscription basis; together they can reduce testing effort and costs buy up to 85%.

### Current

DWS offers a code-current service on a fixed-price subscription basis; enabling our customers to become more agile and take advantage of the latest product updates from Oracle JD Edwards.

### CNC

DWS maintains a highly experienced EnterpriseOne CNC infrastructure department, available to help with all your systems administration needs; including upgrades, audits and migrations.

### Support

DWS offer a comprehensive technical training and support service; not just for the duration of a discrete project, but over the life-time of your investment in JD Edwards EnterpriseOne.
